

WE ARE HERE FOR YOU

Traxxion Expert Network 20+ Experts – 4 Main Contacts

Mark has more than 30 years of experience in portfolio, program, project, and service delivery management in the IT sector, as well as in petrochemical, manufacturing, and financial companies. He holds a degree in mechanical engineering as well as business management. Mark is fluent in Dutch, German, French, and English, and he has been living in Luxembourg since 1995. His second passion is weightlifting.

Sven holds a degree in mechanical engineering and has completed business management training at leading institutions. He is a certified independent board member of IN-SEAD. Sven has gained technical, commercial, and leadership experience in Europe, Asia, and North America. He is fluent in German, French, Dutch, English, and Luxembourgish. In his free time, he participates in vintage car rallies.

Stephan has over 25 years of experience in Kaizen and Lean Manufacturing, as well as general business management. His focus is on process analysis and optimization, as well as the implementation of production planning systems in manufacturing companies. Stephan holds a degree in mechanical engineering and is fluent in German, French, English, and Spanish. In his free time, Stephan is passionate about baking bread and is actively involved as a leader in the volunteer fire department.

François has a degree in mechanical engineering and has worked abroad for an extended period. His areas of expertise include general business management, production technology, and innovation management. He enjoys shaping processes in both small and large companies and implementing 5S approaches. He is fluent in German, French, English, and Luxembourgish. In addition to his professional interests, he is passionate about the Land Rover Defender, gardening, and hunting.
